# DIVINE LIGHTNING RADIANCE

## BOOSTER PACK 12

This holiday season, we bask in the radiance of support units from Angel Feather, Gold Paladin, Genesis, and Narukami!  
Which decks do you look forward to building the most?

## December 18th On Sale!

### ANGEL FEATHER

V-BT12/SP01EN

## BLACK SHIVER, GAVRAIL

The ever-popular angel makes its descent!

Its abilities work closely with the damage zone, where you can use to retrieve a desired card from the damage zone, and perform a pseudo Counter-Charge up to 2! In addition, all of your front row units can get +10000 Power in the process!

Use me with "Black Observe, Hamiel" and "Black Aculeus, Japhkiel"!

### GOLD PALADIN

V-BT12/SP02EN

## SUNRISE RAY KNIGHT, GURGUIT

Gurguit has been an icon for the Gold Paladin clan since the G-era, and this time is no exception!

Unlike the other vanguards of the clan that focus on lightning-fast aggression, Gurguit provides a perfect balance of offense and defense! Superior call units from your deck to defend yourself on your opponent's turn with ease!

Use me with "Dawning Knight, Gorboduc" and "Knight of Spring's Light, Perimore"!

89 types of cards + Various Parallels + 1 type of token | 6 types of critical triggers and 2 types of front triggers planned for reissue

For more details: [bit.ly/V-BT12](http://bit.ly/V-BT12)

## GENESIS

V-BT12/SP03EN

### HOLY HEAVENLY DRAGON, EOSANESIS DRAGON

Astral Poets are oh-so essential in decks built around “Giant Deity of Distant World, Valkerion” to get combos running.

In addition to its ability to activate the Astral Plane as an Astral Poet unit, its deck search ability also allows for the Astral Deity (Valkerion) to be added to hand easily, while gaining a Force marker in the process! Extra copies you draw even double up as nifty perfect guards!

Use me with “Arcturus of Fervent Will” and “Becrux of Stratification”!

## GENESIS

V-BT12/SP04EN

### MYTHIC BEAST, FENRIR

Fenrir’s popularity dates back to the G-era, and this time it makes a comeback clad in power befitting a deity!

Its abilities grant the flexibility to search the deck for a desired card (ideally for important cards like Vanargandr to get the ball rolling), while allowing the player to superior call a rear-guard to field! You even get to superior call a unit put into the drop zone from soul-blasting!

Use me with “Mythical Destroyer Beast, Vanargandr” and “Unappeasable Biter, Gleipnir”!

## NARUKAMI

V-BT12/SP05EN

### DRACONIC VANQUISHER, "FULLBRONTO"

Following the flashy entrance of "Dragonic Vanquisher" in Extra Booster 12: Team Dragon's Vanity!, we go full-on "FULLBRONTO" to bring things to the next level!

Use rear-guards like "Jaggy Shot Dragoon" to fulfil the bind criteria, and let the sparks fly with this unit's abilities! Front row units not only get a power-up off the bat, you also can perform a second vanguard attack during your turn!

Use me with "Jaggy Shot Dragoon" and "Rockclimb Dragoon"!

## Body improvement! Fight on! Fight on! Fight on! – Musashi Goda

As a growing teenage boy, MOB's life does not only revolve around fighting other Espers and psychic powers, he is also a member of the Body Improvement Club in Salt Middle School. In this month's issue, let's tag along in his club activities and meet the other members...

First up, it is the Club President, Musashi Goda! Possessing remarkable physical strength and resilience, Musashi is a force to be reckoned with as exemplified by his CX Combo with Urgent Club Mission.

During the turn where Musashi Goda is played, he gets a power bump of +4500 and both players cannot play Backup when he is in battle.

With his CX combo, you can shuffle up to 5 cards from your opponent's waiting room back to their deck. This effectively expands their deck and reduces the probability of revealing a climax to cancel incoming damage.

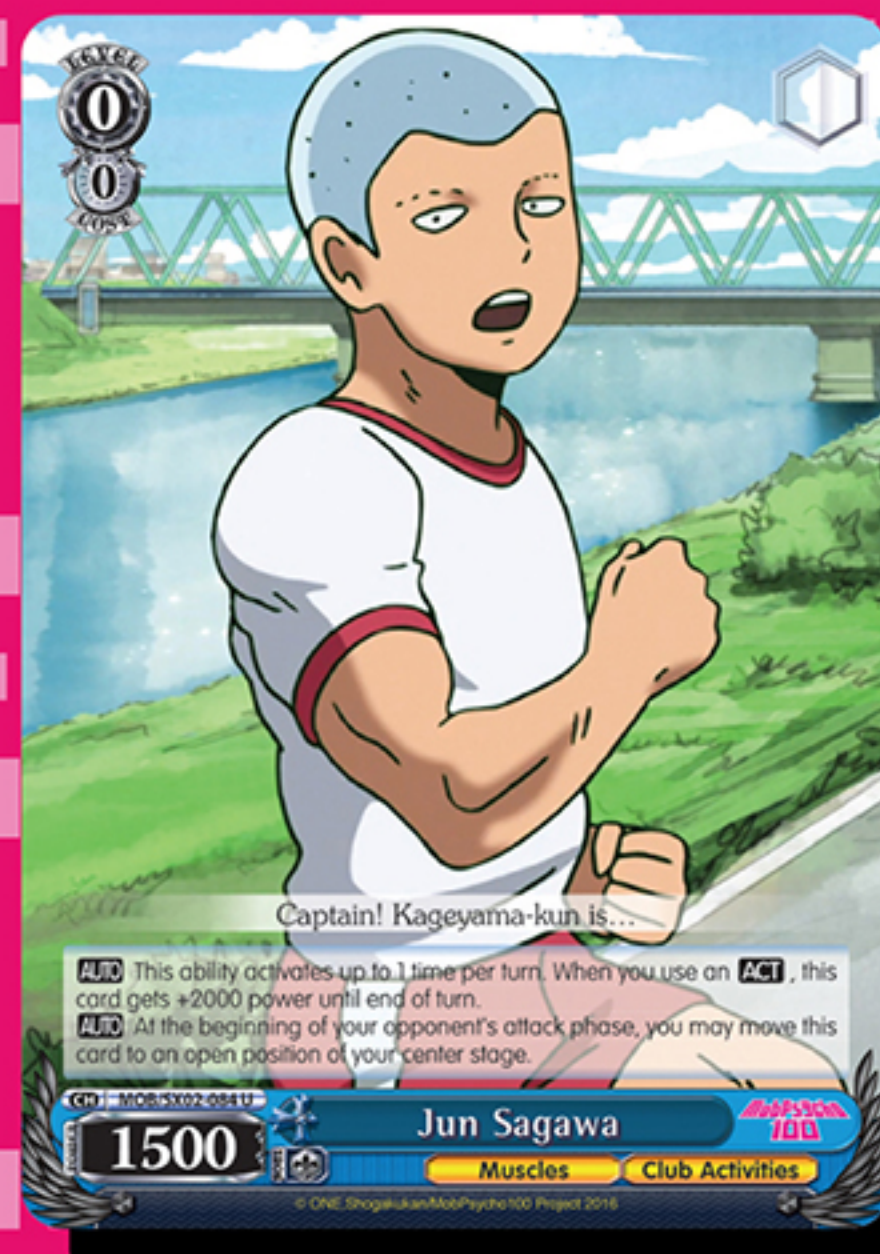

And what better way than to work out with fellow muscle-lovers! Alongside President Musashi are his veteran workout buddies, Hiroshi Kumagawa, a level-based Assist with climax trigger support, Ryohei Shimura with an AUTO ability that lets you retrieve him right after playing him as a counter, and Hideki Yamamura, a potentially bulky attacker (and defender if you play an ACT counter) with Encore!

Another veteran member is Jun Sagawa. Although he does not measure up to the rest of the veteran members in height, he does not lose to anyone when it comes to his love for muscles!

During the turn where you play an ACT ability, he gets a power bump of +2000, making him a solid level 0 attacker with 3500 power!

With his second AUTO ability, you can choose to evade a potentially strong opponent's character by shifting him to an open position of your center stage at the beginning of their attack phase!

Next, introducing the 2 newest members of the Body Improvement Club!

Deck compression fans, we know how you like to pack your deck climax ratio as densely as the Body Improvement Club packs their muscles!

While MOB may not be as physically fit as the other members, he is still an important member of the club where he gives his all!

Featuring MOB: Club Activities where when REVERSE in battle, you can pay 1 cost to send him to Memory and all of your Shigeo "MOB" Kageyama character cards will get the «Muscles» trait!

Last but not least, it is the delinquent-turned-muscle-lover, Tenga Onigawara! Despite being known for his hot temper and tendency to resort to violence, he recognized the value of self-improvement over swagger and joined the club after being persuaded by President Musashi.

During the turn where you play an ACT ability, Onigawara: Body Building Club can get up to +4000 bump in power, depending on the number of other blue or «Club Activities» characters you have on the field.

At the beginning of the encore step, if you do not have another REST character on your center stage, you can REST him and get him back in action for a low cost of 1 stock!

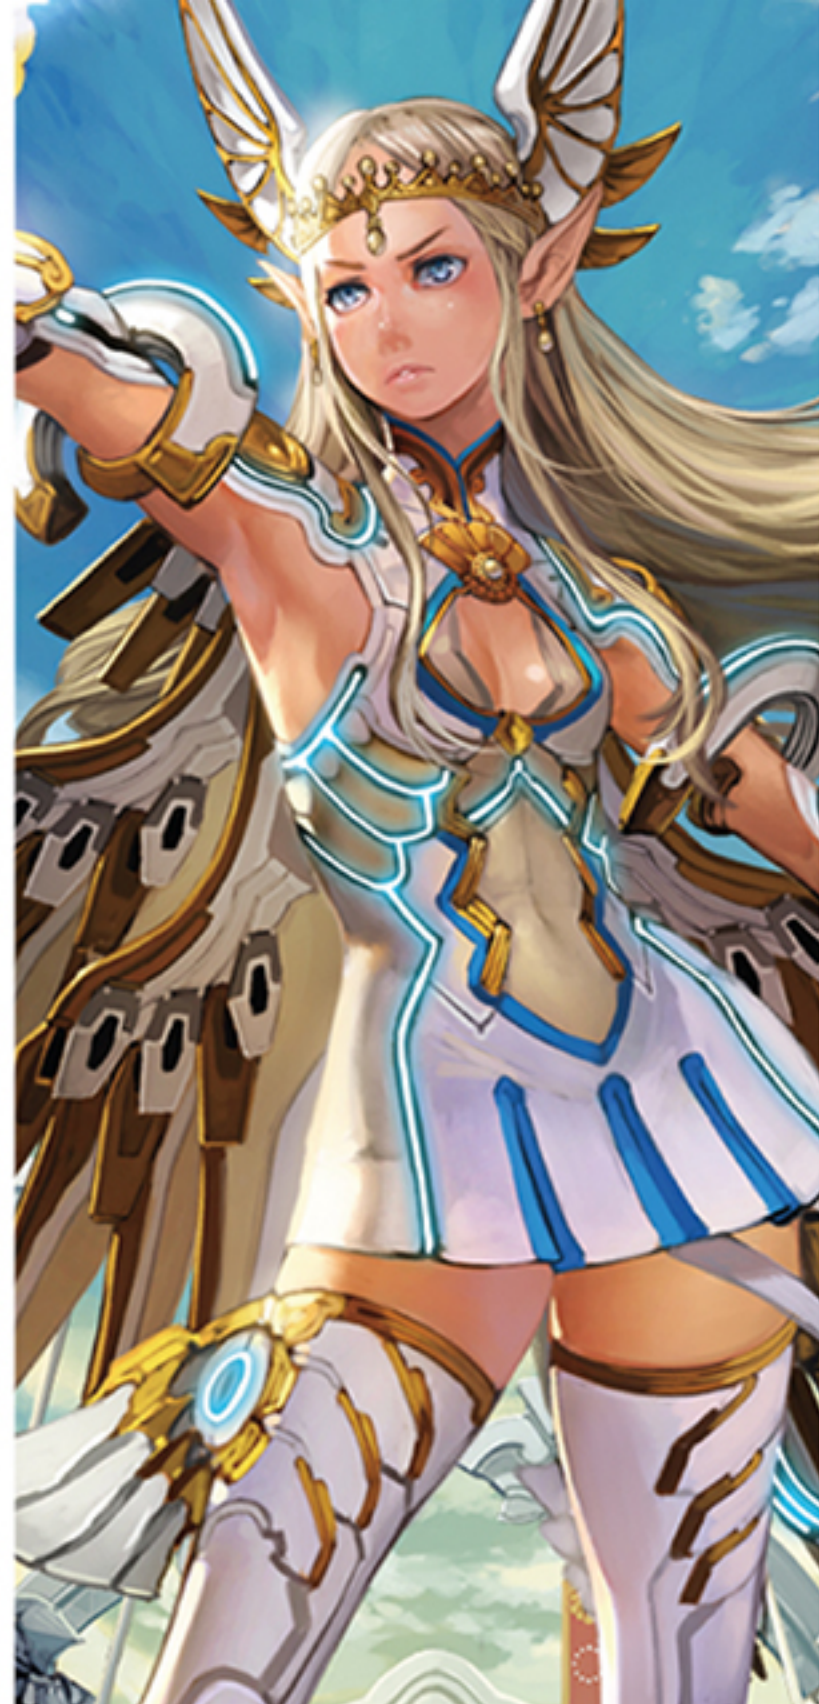

**The Body Improvement Club rewards ACTION and works best with its fellow club members in play!**

**Mark your calendars as Mob Psycho 100 hits stores**
