What is "Irodori Entertainment Post"?

Within the heart of a vibrant, colorful city filled with flying birds, a certain entertainment postal service exists.

Its staff take on all sorts of requests, and deliver happiness, emotion, and all sorts of "colors" to people all over the world. As such, they are often called the "delivery staff of happiness".

Its staff each respond to the requests in their own way, using their unique "individualities" and "specialties".

The first delivery staff hired to "Irodori Entertainment Post" specialize in "Voice" and "Acting".

A story revolving around a small entertainment agency within a certain world crosses with the story of "VTubers", and a new project from the Bushiroad Group has begun.

The first three to debut this time will set their sights on various types of activities as "Virtual Actors"!

Their activities will feature anime and games, and acting lessons on their goal towards becoming voice actors!

Aside from original voice dramas and play recitals, there will also be dialogue request activities such as "A Voice Actress Just For You", so look forward to it!

Authentic voice-acting VTubers that anyone can be close to; be sure to keep an eye on the development of "Virtual Actors"!
